## DETAILED ACTION

### *Drawings*

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because applicant has indicated that the drawings are informal. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious at the time the invention was claimed an improvement method of providing a desired combined flow rate specifically including selecting by positioning on an underside of the piston-contacting knob locations of bosses effective to establish a camming engagement with the pistons to produce flow through the capillaries at a desired flow rate. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
